Open

TO A DEGREE

Five students at Camford University sat their final degree examinations in different subjects. From the information given below, can you name the college at which each was enrolled, the subject in which he or she took a degree and the class of degree each obtained?

Clues

- One girl was studying Archaeology; the other was at Charterhouse College.
- The King Alfred's student, who obtained a first, was not Gordon, the Classics student.
- Lawrence's degree was of a higher class than that of the Maths student, who was not awarded the pass degree.
- The third-class degree was attained in Economics.
- The biochemist studied at Canterbury College.
- Sally's degree was not as good as that obtained by the student from St Mark's.

	Canterbury	Charterhouse	King Alfred's	Prince of Wales	St Mark's	Archaeology	Biochemistry	Classics	Economics	Mathematics	First	Upper second	Lower second	Third	Pass	
Bernice																
Gordon																
Henry																
Lawrence																
Sally																
First																
Upper second																
Lower second																
Third																
Pass																
Archaeology																
Biochemistry																
Classics																
Economics																
Mathematics

IF.....THEN.....????

If

Share if you found! $7=70$

$6=54$

$5=40$

$4=28$

Then

$2=?$

Find the Missing Number?

If

$2+4=10$

$4+6=28$

$5+2=15$

$6+3=24$

then

$7+9=?$
